

SONGER FABRICATION:

CUSTOM-MADE MACHINED PARTS AND ASSEMBLIES.

Songer provides machining, fabrication, custom component building and product assembly services that save time, reduce costs and offer job flexibility. With over 100,000 square feet of manufacturing space available inclusive of an overhead crane and forklift capacity of 50 tons, there's little you'll need across oil, gas, chemical and heavy industrial installations that we can't fabricate ourselves.

WHAT WE BRING TO THE JOB:

- CNC Milling & Turning
- Manual Milling & Turning
- "3 Dimensional" Profile Turning
- Drill, Broach, Thread, Grind, Polish
- Pipe Fabrication
- Structural Steel Assembly
- Metal Parts Assembly
- Hydraulic Assemblies
- Electrical Assemblies
- Automation Panels

DETAILS, DETAILS, DETAILS....

Songer offers product milling of medium-to-large size parts, drilling, tapping, threading, profiling. CNC boring in a variety of materials, precision angle machining, boring mills up to 30" in length, 16' height and a CNC horizontal lathe that can take parts to 38" in diameter and 14" in length.

Those details mean everything when a customer seeks a machined part or assembly that they do not have (or does not exist). We fabricate finished parts and products, cost-effectively created with attention to detail and customer satisfaction.

SONGER. READY TO GO TO WORK.
