

SONGER MAINTENANCE:

UPKEEP THAT KEEPS PEOPLE WORKING.

Our reputation as a world-leading emergency outage repair and maintenance specialist for blast furnaces, coke ovens, thru walls, boilers and refractory is well known. This experience and proven process backstops our entire industrial contracting portfolio—with short and long-term maintenance and repair agreements across integrated steel, oil, gas, chemical and civil installations.

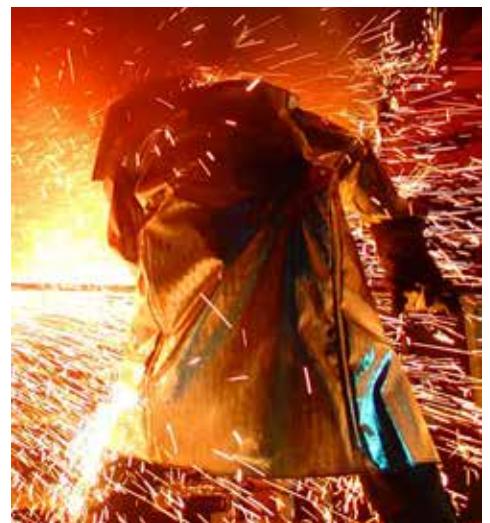

WHAT WE BRING TO THE JOB:

- Scheduled maintenance support
- Emergency outage / unscheduled maintenance support
- Surge and emergency repairs
- Proactive planned maintenance prevention programs
- Qualified union craftsmen
- On site project management
- On staff engineers
- Ability to deploy instantaneously
- Safety management and compliance
- Post outage reporting

EVERYTHING HAS CHANGED. AND IT HASN'T.

We're a bigger, broader company now, but still come to work with a chip on our shoulder expecting to outthink, outwork and outperform competing interests. We want to safely save turns, respond quickly and keep jobsites running.

Whether it's on-site maintenance service agreements, emergency outage repairs, scheduled inspections and upgrades or full-on capital improvements, Songer intimately knows how upkeep keeps people working.

SONGER. READY TO GO TO WORK.
