

SONGER QUALITY ASSURANCE & CONTROL:

PROFESSIONAL. EFFICIENT. THOROUGH.

No matter how stringent or specific your demands, quality assurance and control with Songer Services is a practical matter we incorporate into everyday life on the job. Our full-time personnel understand and execute their task through the focused lens of what the job requires—a robust quality system that accounts for the immediate, short and long-term tasks at hand.

WHAT WE BRING TO THE JOB:

- Preconstruction project planning
- Detailed scope & statement of work
- Multi-discipline QA/QC job plans
- Daily task & safety meetings across active crafts
- Compliance and code benchmarking with engineers, project leads, crafts, subs
- Daily inspection (announced, unannounced) of jobs in progress
- Communications, risk, procurement, schedule & staff management
- Certified weld inspectors; weld – and welder – testing
- Non-destructive testing / mag particle and liquid penetrate
- Punchlist development, status reports and project closeout

THE DEVIL IS IN THE DETAILS.

Our proven QA/QC systems ferret out potential problems or hazards without creating more of them. Our professional team is a jobsite fact of life that minimizes and mitigates risk while maximizing the efficiency, quality and compliance of the work being done daily.

And it's not just our QA/QC personnel who feel responsible for every task at hand. Songer's investment in 100% union crafts, foremen, full time project managers, and civil/mechanical engineers means every single person on the job takes QA personally. Just like you do.

SONGER. READY TO GO TO WORK.
