

SONGER SAFETY MANAGEMENT:

A DAILY JOBSITE OBSESSION AND PROVEN PROCESS.

At Songer Services, each workday begins with documented safety analysis & activity sheets supported by full-time safety professionals nationwide as part of our trademarked "Making Accidents Preventable™" (M.A.P.) protocols. Our top-down, systematic approach to safety has evolved beyond procedure to become culture—an obsession with keeping employees & jobsites safe.

WHAT WE BRING TO THE JOB:

- OSHA 10/OSHA 30 Course
- Aerial Lift
- Confined Space Attendant
- Daily task planning / MAP Handbook
- Fall Protection
- Emergency Action Procedures
- Energy Control
- Engineered Lifts
- Gas Hazards
- Emergency Preparedness and Evacuation Plans
- Process Safety Management
- CPR / First Aid
- Permit Required Confined Space
- Fall Protection
- Lock Out/Tag Out
- Breathing Air
- Hazardous Material
- Gas Monitoring

A SAFER APPROACH TO EVERY JOB.

The time and effort we put into our comprehensive national safety program seamlessly matriculates down to each jobsite and to every project manager, foreman, subcontractor and craftsman. M.A.P. is big, detailed, organized, clear and expensive—and it is worth every moment we invest and every dollar we spend.

Flip the page to see a complete outline of how Songer Services defines safety on a daily basis. Build safely and efficiently at every stage of the job.
